 40h/w

About Optimo

Our mission is to become the most essential **upskilling solution for industrial companies**.

We are Optimo, an early stage startup, developing an upskilling planning software that helps production companies future-proof their workforce. Now we are taking things to the next level with help from the SIBB accelerator in Berlin.

We want you!

We are looking for a full-stack developer - beginning as soon as possible. You will be part of a small, growing team. You will be mainly responsible for software development. That is why we are looking for someone who is experienced in web-based software projects from ideation to product development.

Your Opti-day-to-day

- Driving product and tech implementation from a MVP to the full product
- Developing new features of the software in frontend and backend and being **responsible for core components** of the software in the long run
- **Writing efficient, performant and extensible code** using the right tools and patterns to implement the functionalities that add value to our customers
- Identifying, documenting and communicating technical improvements within your area of responsibility in the team

What you will need to succeed

- Ideally, you have written a lot of **React, Python and Java Script** before. We are open to change our tech stack in the future
- Effective **written and verbal communication skills**, including writing reports
- Experience in CI/CD, pull/merge request and code reviews
- **DevOps experience** is valuable (AWS / Google Cloud, etc.)
- You are fluent in **English and/or German**

Your Opti-benefits

- Being part of an **entrepreneurial journey**
- Working with large data sets from our partners and developing new skills on a personal level every day
- Building up a unique software solution from the ground
- Unique collaboration opportunities with relevant industrial partners
- Being part of a highly motivated and ambitious team

Are you ready for the Opti-Journey?

Apply directly via LinkedIn or send us your CV via email and answer the following question: "Why do you want to be a part of our team?"
